Adopted June 24, 2019

Mission Statement

“To provide the citizens of Asheboro with excellence in leadership, fiscal management and municipal services and to create meaningful and appropriate opportunities for citizen participation to improve the quality of life for all.”

A Brief History of Asheboro

- 1780 Citizens demand that the county seat be relocated from Johnstonville to a place more convenient for citizens of Randolph County. Asheboro, named for former governor Samuel Ashe, came into being on land owned by Jesse Henley.
- 1793 First session of court held in Asheboro.
- 1796 Asheboro received its charter from the State Legislature on Christmas Day.
- 1805 Large two-story frame building housed the court. The town began to take form on a 50-acre tract with the focal point as the courthouse on Main Street. For almost the first century of the town's existence, court-related business was the primary business of town.
- 1814 Asheboro designated a post office.
- 1824 Jonathan Worth, a 22-year-old lawyer, took up residence in Asheboro and became the town's most prominent citizen. After serving six terms in the Legislature and two terms as state treasurer, he served two terms as governor, from 1865 to 1868.
- 1829 Formal government created. The town petitioned the legislature to reincorporate and appoint new commissioners so that improvements can be made.
- 1834 The first church in Asheboro, the Methodist Episcopal Church, was built.
- 1836 Lawyer and Editor Benjamin Swaim published the town's first newspaper, Southern Citizen, weekly from 1836-1844. In one of his editions, Swaim called Asheboro an "uncommonly healthy and pleasant" village of about 100 inhabitants.
- 1850-51 The Fayetteville and Western Plank Road section through Asheboro was completed. At this time, Asheboro had 32 households totaling 154 people, including 11 free blacks. By this time, much of the wealth of the town resulted from gold mining operations nearby.
- 1876 A period of stagnation followed the Civil War. In 1876, Asheboro's population had grown to about 200. Asheboro still had only two churches and two academies, one for males and one for females. Two hundred bales of cotton were sold at the Asheboro market that year.
- 1889 The High Point, Randleman, Asheboro, and Southern Railroad arrived in Asheboro, marking the beginning of a period of prosperity and growth. Competition came in 1896 with the arrival of the Montgomery Railroad, from Star to Asheboro. The railroad depots and a disastrous fire caused the center of town to shift Main Street to Sunset Avenue.
- 1890 Population was 510
- 1897 The Bank of Randolph and Asheboro Telephone Company were established.
- 1900 Population was 992
- 1908 Acme Hosiery Mills was chartered on December 19, 1908. The original product was cotton stockings.

- 1909 County courthouse completed on Worth Street at a cost of \$34,000
- 1910 Population was 1,865
- 1911 Asheboro Fire Department was organized
- 1912 There were already about 30 stores in Asheboro plus two roller mills, two chair manufacturers, a lumber plant, hosiery mill, wheel barrow factory and foundry.
- 1920 Population was 2,559
- 1930 Population was 5,021
- 1950s The business tempo of the 1920s was smothered by The Great Depression and World War II, but the aftermath of World War II resulted in a flurry in industrial plants to augment the cluster of hosiery plants here.
- 1979 North Carolina Zoo opens its first permanent exhibit

Taken from L. Barron Mills, Jr. 's History of Asheboro, compiled for the 1996 Bicentennial.

Geographic Characteristics

Location

Asheboro is at the geographic center of Randolph County and is the county seat. The terrain is more rolling than that usually found in the Piedmont because of the Uwharrie Mountains to the southwest. Randolph County has an area of 787 square miles and Asheboro contains approximately 16.69 square miles.

Climate

The climate is typical of central North Carolina with moderate winters and ninety-degree summers, tempered by adequate rainfall for crops. The average rainfall is 45.43 inches per year. The current mean temperature in June is 77; and in January the current mean temperature is 44. Asheboro's central location within the State, climate and terrain provide the ideal location for the North Carolina Zoological Park.

Population

The 2010 Census indicates Asheboro had a population of 25,284 people and the population of Randolph County was counted to 142,466. Asheboro is within fifty miles of the fast growing Piedmont Triad region of the state. Charlotte, the state's largest city, is less than 75 miles to the southwest and the State Capitol is 75, miles to the east.

Subject: 2019-2020 Annual Budget

THE CITY OF ASHEBORO 2019-2020 ANNUAL OPERATING BUDGET

1. Introduction

In accordance with the North Carolina General Statutes Article 159-11, I present the 2019-2020 annual budget representing the financial and operational plan for the upcoming fiscal year. The fiscal year 2019-2020 budget is balanced at \$46,462,433.

2. Reappraisal of property tax base and resulting adjustment to tax rate.

Under NC Law, property taxes are the primary source of local governments. In 2018-2019 our projected revenue from property tax collections is estimated at approximately \$15,300,000. This year, after re-valuation, the projected revenue is estimated at \$16,312,000. After re-evaluation, an adjustment in the tax rate to \$0.625 from \$0.665 would bring in the same level of revenue. However, at this time, I am not recommending that adjustment due to 1) the economic uncertainty of Randolph Health Systems, 2) the ongoing economic trade wars and its impact on retail sales, 3) the opening of the southern loop of HWY 64 bypass which also may have a negative effect on sales tax reimbursements 4) the need for additional police officers and firefighters to meet public safety demands, response times and provide rescue services, 5) local incentive program that supports the downtown redevelopment plan and 6) the need to complete our Capital Improvement Plan projects including: the City Recreation Center, the Zoo City Sportsplex, the Asheboro North Police Substation, and the Arboretum.

3. General Fund Revenues

I recommend that the property tax rate remain at \$0.665 cents per \$100.00 value for this budget year.

Our main sources of revenue consist of ad valorem property tax revenues, sales tax, Powell Bill (gas tax) and utilities franchise tax. Due to the property revaluation, I expect overall revenues to increase by about \$1M dollars in comparison to current year revenue.

4. Water & Sewer Fund Revenues

The City of Asheboro Water & Sewer fund is fully supported by revenues generated from its operations. The major sources of revenue from water and sewer fund operations come from water and sewer charges, sampling and monitoring fees, surcharges and septic tank discharge fees. Water and sewer charges are paid by all users – individuals, businesses and industry. All other major sources noted above are paid by businesses and industry.

I am recommending the minimum water bill inside city limits remain at \$13.91 and the minimum bill for sewer services inside city limits remain at \$17.18. I am also recommending the water consumption rate remain at \$2.74 per 100 cf. over first 150 cf. usage and the sewer consumption rate remain at \$2.81 per 100 cf. over first 150 cf. usage. For an inside water & sewer city limit customer, the minimum water & sewer bill is only \$31.09 per month or \$1.02 per day.

5. Fund Allocations:

Fund allocations are as follows:

General Fund:	\$31,743,697
Water and Sewer Fund:	<u>\$14,718,735</u>
<u>Total:</u>	\$46,462,432

CITY OF ASHEBORO

MAYOR & GOVERNING BODY

GENERAL INFORMATION

The City Council is the legislative and policy making body of the city. It is composed of a Mayor and seven council members elected at large. The Mayor presides at meetings and serves as the ceremonial head of government. The City Council meets in regular session the first Thursday following the first Monday of the month at 7:00 pm. The Council also sits for special meetings as is needed.

The mission of the Asheboro City Council is: “To provide the citizens of Asheboro with excellence in leadership, fiscal management and municipal services and to create meaningful and appropriate opportunities for citizen participation to improve the quality of life for all.”

OBJECTIVES

At each of the past Planning Retreats, the City Council has conducted a careful study and review of the existing goals and objectives for the City of Asheboro and discussed events and matters affecting the city which may be undertaken during future fiscal years.

In the 2005-2006 fiscal year, the City Council began participating in a community wide Strategic Planning Process to gather insight from others in the community and to carefully re-identify where their focus needs to be going forward. The Strategic Plan Steering Committee established the vision of Asheboro – “Asheboro will be a model community in North Carolina as a place to live, work, and play.” This vision guided the Steering Committee and task forces in their 18 month study and analysis.

The strategic planning process culminated in March 2007 with the production of the Asheboro 20/20 strategic plan report. Contained in this report were a series of goals and strategies that now guide and help provide focus to the City Council as they make decisions for the future. The four areas of focus for these goals and strategies are:

1. Economic Development
2. Growth, Annexation and Infrastructure
3. Quality of Life
4. North Carolina Zoo

GENERAL INFORMATION

The Finance Department is responsible for managing all of the financial affairs of the City and supports the other departments through accounting services and financial reporting. The Finance Department operates under the direction of the Finance Officer.

Activities performed by the Finance Department include accounting, debt administration, data processing, and cash management. The accounting function involves payment of the City's bills and maintenance of the general ledger for all funds and subsidiary ledgers for receivables, payroll, payables and fixed assets. Cash management includes maximizing invested funds while insuring a ready cash reserve for payment of current obligations.

In addition to preparing monthly internal financial statements, the Finance Department is also responsible for assisting with the annual independent audit and preparation of the Comprehensive Annual Financial Report, which reflects the financial position of the City at year end.

OBJECTIVES

The objective of the Finance Department is to perform accurately and efficiently each of the following financial functions: administration of debt; data processing; cash management; internal auditing; accounting; financial reporting; payroll processing, devising internal controls to insure proper expenditures of City funds and collection of revenues, and assistance in budget preparation.

Specific goals are the following:

- To ensure that the City's financial operations are being performed as efficiently as possible while providing for maximum internal controls and proper stewardship of assets. The establishment of an accounting operations manual will be one end result.
- To maximize yield on invested funds in an environment where revenue sources are threatened and interest rates are very low. Safety of invested funds is of prime importance.
- To ensure that the current system of internal accounting controls is adequate, that controls are being performed as intended and that the financial statements generated provide reliable and accurate data.
- To improve the financial accounting system to enable the City to be in compliance with the most recent accounting standards and regulations.

INFORMATION TECHNOLOGY

GENERAL INFORMATION

The Information Technology Department manages computer and technology resources within the City, ensuring that those resources are available and secure for use. The department is responsible for network security, which includes restricting access to certain websites, maintaining virus and spyware protection, and employing other security measures to safeguard the City's information. This department reviews and evaluates new technologies as they emerge and recommend any desirable hardware and software upgrades for the City. It also interacts with other departments as they plan to budget for technology purchases. The department oversees the planning and implementation of additions, deletions, and major modifications to the City's network infrastructure. It manages the City's telephone system as well as 195 cell phones and 139 Wi-Fi devices. The department oversees and administers the maintenance of 13 servers, over 300 computer work stations, and the software required to use them and oversee system backups, archiving, and disaster recovery practices.

The Information Technology GIS Department deploys a working Geospatial Information System (GIS) to the City and to the public. A GIS is any system that captures, stores, analyzes, manages, and presents data that are linked to location(s). The City uses this to provide location information on water/sewer utilities, street centerline data, structure addressing data and all other data related to property. GIS is also used as a platform for the creation for new data for short and/or long term use. For City use, GIS is used for producing maps specific to field related jobs or for field analysis. Each department within the City has access to a web based GIS service (ConnectGIS) for the creation of maps for specific projects or a general overview of what data is available.

OBJECTIVES

- Provides leadership for short and long range planning for all technology initiatives.
- Facilitates planning and implementation of telecommunication devices, along with local and wide area networks.
- Maintains servers that control email and internet connectivity for City of Asheboro employees.
- Ensures the maintenance of all computers and software.
- Plans and implements staff development to assist in using new software applications.
- Works with department heads to incorporate technology by identifying strategies and materials as needed.
- Assists end users in resolving technology oriented problems.

GENERAL INFORMATION

The primary functions, duties and responsibilities of the Inspection Department are reviewing plans, issuing permits and inspecting construction and properties as required by the North Carolina State Building Code and The North Carolina Fire Prevention Code.

The department works closely with the Zoning Administrator and Code Enforcement Officer in the issuing of permits. Work is also coordinated with the Water Department, Engineering Department, Public Works Division, Fire Department and other departments and agencies in our endeavor to keep the buildings safe and stable for human habitation. The staff consists of one full time and one part time inspector. The Inspection Department is responsible for periodic inspections of the public and private schools in the city limits. This requires a thorough inspection of each facility for compliance of all codes. The public also depends upon our office for various information and assistance.

The department assists the office of the city clerk with issuing and renewing local permits for taxi cabs and local ABC licenses. The inspectors assist with monitoring the city for new and different businesses and collect on delinquent licenses. This is a constant process which changes very rapidly. Each day has a varied schedule and brings new challenges to our department that must be resolved.

OBJECTIVES

The objectives of the Inspection Department are to continue to provide the following:

- Service all the citizens and the contractors in building related matters.
- Enforce all phases of the North Carolina Building Code.
- Protect the health, safety and welfare for each and every resident of the city.

PUBLIC WORKS OPERATIONS

GENERAL INFORMATION

The Operations Department provides general supervision and assistance to all public works areas, including Street, Sanitation, Water & Sewer Maintenance, Grounds Maintenance, Fleet Maintenance and direct supervision to Traffic Division, Building Maintenance, Utility Inspections, Utility Locations, Cemetery Management and Erosion Control Program. The department assists the general public by providing various types of information and assistance with complaints. The Operations Department is also involved in setting quality standards, planning, goal setting, record keeping and various other activities as required.

The City Nurse promotes wellness to all city employees. She accomplishes this through pre-employment and annual physicals as well as education and counseling. The City Nurse also assists with the workers compensation program for the city.

OBJECTIVES

- Coordinate Public Works projects and activities.
- Investigate miscellaneous complaints and assist with solutions.
- Plan for future growth to provide adequate services.
- Maintain adequate records of city services and projects.
- Inspect all new utility and street projects to maintain proper quality standards.
- Administer Erosion and Sediment Control Program.

FLEET MAINTENANCE

GENERAL INFORMATION

It is the Fleet Maintenance Department's responsibility to provide the following:

- Maintain, repair and service all City owned "fleet" equipment which includes about 350 licensed motor vehicles.
- Maintain fuel and parts inventory.
- Keep work orders and fuel records on each piece of equipment.
- Recommend when a piece of equipment needs to be replaced.
- Assist in writing specifications for purchasing equipment and in evaluating bids received.
- Provide Finance, on a monthly basis, information relating to the cost of services provided to each individual department.

OBJECTIVES

- To keep all city vehicles and equipment in safe and operational condition.
- To maintain a good preventative maintenance program by observing equipment more closely, such as checking brake pads and shoes and rotating tires.
- To give department heads an estimated cost before major repairs are made on their equipment.
- To purchase parts, fuel, oil and tires at the most economical price.
- To assist departments with writing specifications and review bids to make sure they meet specifications.
- To provide professional and efficient service to all departments.

GENERAL INFORMATION

The Street Maintenance is primarily responsible for maintenance of the City's streets. This includes, but is not limited to, a scheduled system of street repairs and maintenance to ensure safety and efficiency.

The Street Department also oversees snow and ice removal, leaf collection, curb and gutter repair, storm drain maintenance, driveway maintenance and installation and the cleaning of creeks, drainage ditches and side ditches.

The Street Department maintains records supporting the City's use of Powell Bill Funds. Pursuant to North Carolina General Statutes 136-41.1 through 136-41.3 the Powell Bill provides for "funds to be allocated to cities and towns for the purpose of maintaining, repairing, constructing, reconstructing, or widening of any street or public thoroughfare within the corporate limits of that municipality". These funds are state shared revenues.

OBJECTIVES

- To maintain an efficient resurfacing program to ensure the citizens' safety.
- To patch pavement and make necessary utility cuts.
- To maintain a system of cleaning and flushing city streets.
- To provide an adequate and timely response to citizen calls.
- To mow street right of ways, sidewalk grass and around city maintained parking lots on a consistent schedule. This will be done to ensure good appearance. This also includes any bush hogging done including upkeep of the Asheboro Municipal Airport.
- To provide an efficient and responsive leaf collection program.
- To maintain an efficient snow and ice removal program through maintaining adequate equipment including salt spreaders and snow plows.
- To maintain curbs, driveways, catch basins, storm drains, culverts and right of ways in safe condition.
- To minimize contract labor by using an in-department construction and concrete crew for the building of catch basins, curb replacement, ball fields, parking lots, sidewalks, etc.

GENERAL INFORMATION

The Environmental Services Department makes collections of solid waste, recyclables and yard waste from residents (approx. 9,515 households) and commercial locations within the city limits. Collections from commercial customers are fee-based and include restaurants, institutions, multi-family and businesses. Industries provide their own pickup service. To better serve the citizens, the Environmental Services Department has automated equipment. This automated equipment provides for a more efficient collection system. The Environmental Services Department maintains two drop sites for recyclables.

OBJECTIVE

- To continue to meet citizens' requests for solid waste, recyclables and yard waste collections.

GENERAL INFORMATION

The major purpose of the Billing and Collection Department is to provide efficient and accurate service to all billing customers. The Billing and Collection Department handles the billing for various water and sewer utility services and in conjunction with the Environmental Services Department, they process the billing for various services such as commercial dumpster collection and charges for curbside, white goods and brush collection.

Duties performed by departmental staff include the processing of customer orders for the start, termination or transfer of water services; billing of all customers on a monthly basis; receiving and processing payments; handling of customer service, billing problems and customer complaints; keeping correct records on customer accounts; processing permits for the discharge of holding tank waste; billing and processing payments for the users of bulk water; billing and processing payments of industries for sampling and monitoring fees and surcharges for excessive pollutants; and billing and processing payments of residential and commercial properties for garbage charges.

OBJECTIVES

The work objective is to provide the citizens of Asheboro with efficient services at the most economical costs.

Specific goals include:

- Obtain accurate readings for month end billing. To have readings rechecked on water bills as applicable before billing and to notify customers, either by phone or by information tags left on doors whenever possible, of possible leaks as detected by higher than normal consumption for that location. This procedure saves the customer money and also keeps the water loss to a minimum.
- To allow all customers to have water and sewer accounts in service, disconnect notices will be mailed on or about the 16th of each month. Additionally, on or about the 26th of each month accounts with past due balances will be disconnected. If payment is not remitted, accounts will be turned over to an outside agency for collection.
- To assure that accounts receivable information is current and accurate; all accounts will be balanced monthly.

WATER TREATMENT

GENERAL INFORMATION

Raw water for Asheboro is obtained from three impounding lakes west of the city. The major sources are Lake Lucas having a 1.25 billion gallon capacity and Lake Reese having a capacity of 2.4 billion gallons. Lake Bunch serves as an auxiliary water supply.

Water is treated at the W.L. Brown Water Treatment Plant on Winslow Avenue with a treatment capacity of 12 MGD. Water is pumped from the treatment plant to customers through five high service pumps and stored in six storage tanks with a capacity of 6.66 million gallons. The operators at the treatment plant constantly monitor the system at all points to ensure a clean, pure water supply and exceed requirements of the NCDENR and the EPA.

The total amount of water treated for FY 2017-2018 was 1.763 billion gallons at an average daily consumption rate of 4.73 MGD.

OBJECTIVES

- Provide the citizens of Asheboro with a safe, pleasant and adequate supply of potable water at a reasonable cost
- Provide an adequate and safe supply of potable water through a water treatment process which is in accordance with current state and federal water quality standards
- Enhance competent and responsible operational personnel through training, certification and pride in a professional performance
- Ensure operational and treatment control through analytical laboratory performance and data analyses

GENERAL INFORMATION

The purpose of this department is to maintain the city's water distribution system, consisting of approximately 243.5 miles of water lines, and to ensure an uninterrupted flow of clean, safe water to residential, commercial and industrial users. In addition to upgrading and replacement of existing water lines, this department also raises and replaces valve boxes, manhole ring covers and fire hydrants as needed. Production of water taps to serve new customers is another function of this department.

OBJECTIVES

- To maintain a dependable water supply system
- To perform repair service promptly
- To reduce water revenue loss by repairing non-serviceable lines
- To perform preventive maintenance on all service lines
- To encourage technical proficiency through continuing education
- To maintain a quality water supply system
- To flow, inspect and paint all hydrants within the city's system as needed
- To exercise water valves to ensure they are working properly

GENERAL INFORMATION

The Technical Services Department performs technical, observational, enforcement and educational work with industries and food service establishments for the protection of the wastewater collection and treatment systems. The Technical Services Department implements and enforces guidelines for direct and indirect contributors into the wastewater collection system. This department also assists in special studies and administration of public education and safety programs for the Water Resources Division.

The City of Asheboro has 16 permitted significant industrial users, 186 food services establishments, 20 authorized septic dischargers and 2 ground water remediation dischargers.

OBJECTIVES

- Ensure industrial and nondomestic wastewater discharges meet local, state and federal requirements through permits, allocation of pollutant loadings, monitoring, inspection and enforcement
- Enhance competent and responsible operational personnel through training, certification and pride in professional performance
- Inspect and educate food establishments to ensure wastewater discharges are compliant with regulations and will not contribute to sewer line blockage and overflow
- Prevent the introduction of pollutants and wastewater discharges into wastewater treatment plant which will interfere with the operation of the system
- Work with various public groups to provide education and outreach regarding water resource activities

Budget Process

The budget is the single most important document presented to the City Council. It is primarily intended to establish policy determination but also serves the citizens by providing understanding of the City's operating fiscal programs. It reflects the City's commitment to maintain necessary services, improving the quality of service and keeping the impact of taxes to the citizens at a minimum.

The City operates under an annual budget ordinance adopted in accordance with the provisions of the Local Government Budget and Fiscal Control Act. The budget ordinance is the legal basis of the budgetary accounting system and the standard by which proposed expenditures are measured. The balanced budget ordinance must be adopted prior to the beginning of the fiscal year. The ordinance is subjected to public inspection and a public hearing prior to adoption. The budget is considered balanced when estimated net revenue and appropriated fund balance equals appropriations.

The budget is adopted on a departmental basis and is prepared using the modified accrual method of accounting for all funds. All monies received and expended must be included in the budget ordinance. Departmental appropriations that have not been expended by the end of the fiscal year shall lapse.

The Budget Officer is authorized to transfer budgeted amounts within the departments but any revisions that alter total expenditures must be approved by the City Council through legislative action. All budget amendments must be reported in a public meeting of the Asheboro City Council and made a matter of record in the minutes.

The preparation of the budget not only requires structured guidelines but also the participation and cooperation of many participants and a carefully scheduled series of events.

The following summarized budget cycle is followed by the City in the formulation of the budget.

FORMULATE HISTORICAL DATA

During the first phase of the budget process the accumulation of past financial information is prepared by the Finance Department. The data concerning expenditures are segregated by operational departments to be used by department heads and management for performance evaluation and projection of resources required to meet department objectives.

PREPARATION OF DEPARTMENT REQUEST BY DEPARTMENT HEADS

Estimating departmental expenditures is the primary responsibility of the department head. When budgeting expenditures the basic requirements established by the department head are requested. Funding will be sufficient to adequately operate the department and requested funding will be at the lowest reasonable level in order to achieve the departmental goals and objectives.

CONSOLIDATE PRELIMINARY BUDGET

The departmental requests are submitted to the Finance Director in order to consolidate the individual departmental request into an overall budget. At this point, the focus of attention shifts from the departmental basis to the fund basis. Departmental capital outlay requests are analyzed in coordination with the approved (if applicable) Capital Improvement Budget. The Finance Director projects resources through established revenue rationale and the formal budget review begins.

EVALUATE SERVICE PRIORITIES AND OBJECTIVES

This phase of the budgeting process is an important step in developing a fiscal plan which will achieve the City's program of service for the ensuing year. The budget document should reflect the service priorities of the Governing Body and citizens of Asheboro. A comprehensive review of service needs compared to departmental goals and objectives will be analyzed by the City Manager.

BALANCE PROPOSED BUDGET

After the City's program of service priorities have been established, a balanced plan for funding must be formulated. The City Manager must reconcile the growing demand for service with the limited resources available to the city. The budget is organized in final format together with various summaries and submitted to the City Council for legislative review.

LEGISLATIVE REVIEW

The City Council reviews the budget, department by department, with the City Manager during special work sessions. If necessary, departmental objectives and service priorities may be adjusted during this procedure. A copy of the budget will be filed with the City Clerk for public inspection and a public hearing will be scheduled prior to the formal adoption of the budget.

BUDGET ADOPTION

The adoption of the proposed budget is the culmination of the review of budget proposals by the City Council, Finance Director and City manager. Adoption of the proposed budget by the Governing Body establishes the legal authority to incur expenditures in the next fiscal year.

CHART OF ACCOUNTS – STRUCTURE

PURPOSE

This chart of accounts is designated to provide a uniform and orderly list from which the City of Asheboro's Finance Department can elect uniform account codes.

PROCEDURE

Nine digit account numbers have been assigned in all cases. The first two digits are the fund codes and remain the same for assets, liabilities, revenues and expenditures within that fund.

Categorized examples of these numbers are:

10 – General Fund

30 - Water and Sewer Fund

The third and fourth digits are basic account numbers for assets, liabilities, revenues and designated expenditures. In the two annually adopted budgets of the General Fund and the Water & Sewer Fund, these digits represent the departmental area of expense. In Special Revenue and Capital Project Funds, these digits represent area of expense. They are numbered thusly:

101-199 – Assets and Other Debits

201-299 – Liabilities and Other Credits

301-399 – Revenues

400-999 – Expenditures – Departmental Expenditures

The last four digits are the sub-account codes in the assets, liabilities, revenues and expenditure sections of the chart. These numbers are used to provide further detail. For example, the digits in the expenditure section of the General Fund and Water & Sewer Fund are used to indicate the object of expenditure.

Account Number structure:

Fund XX
Basic Account XXX
Sub-Account XXXX

Typical Revenue Account Number:

10-301-2010

General Fund – Ad Valorem Taxes-2010 Levy

Typical Expenditure Account Number:

30-840-3600

Water & Sewer Enterprise Fund – Water Maintenance Department

BUDGET GLOSSARY

Ad Valorem Taxes – Revenue accounts showing taxes paid on real property, personal property and property of public service companies allocated by the Ad Valorem Tax Division of the State Department of Revenue.

Appropriation – An authorization made by the City Council which permits the City to incur obligations and to make expenditures of resources.

Assessed Valuation – A value that is established for real or personal property for use as a basis to levy property taxes.

Bond – A written promise to pay a sum of money on a specific date at a specified interest rate. The interest payments and the repayment of the principal are detailed in a bond ordinance. The most common types of bonds are general obligation and revenue bonds. These are most frequently used for construction of large capital projects, such as buildings, streets and bridges.

Budget – A plan for raising and spending money for specific purposes during a fiscal year.

Budget Amendment – A legal procedure utilized by the City staff and City Council to revise a budget appropriation.

Budget Calendar – The schedule of key dates which the City's departments follow in the preparation, adoption and administration of the budget.

Budget Document – The instrument used by the budget-making authority to present a comprehensive financial program to the City Council.

Budget Message – The opening section of the budget which provides the City Council and the public with a general summary of the most important aspects of the budget, changes from the current and previous fiscal years, and the views and recommendations of the City Manager.

Budget Ordinance – The official enactment by the City Council to establish legal authority for the levying of taxes and appropriation of funds for specific purposes during a fiscal year.

Budgetary Control – The control or management of a governmental unit or enterprise in accordance with an approved budget for the purpose of keeping expenditures within the limitations of available appropriations and available revenues.

Capital Asset – Tangible property with an expected useful life in excess of one year

Capital Outlay – Expenditures for the acquisition of capital assets. Includes the cost of land, buildings, permanent improvements, machinery, large tools, rolling and stationary equipment.

Capital Improvement Program – A plan for capital expenditures to provide long-lasting physical improvements to be incurred over a fixed period of several future years.

Cash Accounting - A basis of accounting in which transactions are recorded when cash is either received or expended for goods and services.

Cash Management – The management of cash necessary to pay for government services while investing temporary cash excesses in order to earn interest revenue. Cash management refers to the activities of forecasting the inflows and outflows of cash, mobilizing cash to improve its availability for investment, establishing and maintaining banking relationships.

Contingency Account – A budgetary reserve set aside for emergencies or unforeseen expenditures not otherwise included in the budget.

Debt Services – The City’s obligation to pay the principal and interest of all bonds and other debt instruments according to a predetermined payment schedule.

Delinquent Taxes – Taxes that remain unpaid on and after the due date on which a penalty for non-payment is attached.

Department – An organizational unit responsible for carrying out a major governmental function.

Department Budget – A budget which uses departmental total as the basis for limiting expenditures. The City of Asheboro uses a departmental budget.

Depreciation – The process of estimating and recording the expired useful life or diminution of service from a fixed asset that cannot or will not be restored by repair.

Disbursement – Payment for goods and services in cash or by check.

Encumbrance-The commitment of appropriated funds to purchase an item or service. To encumber funds is to set aside or commit funds for future expenditures.

Enterprise Fund - A governmental accounting fund in which the services provided are financed and operated similarly to those of a private business. The rate schedules for these services are established to insure that revenues are adequate to meet all necessary expenditures. The enterprise fund in Asheboro provides water and sewer services.

Estimated Revenue - The amount of projected revenue to be collected during the fiscal year. The amount revenue appropriated is the amount approved by the City Council.

Expenditure – This term refers to the outflow of funds paid or to be paid for an asset, debt-retired or goods and services obtained regardless of when the amount is actually paid. This term applies to all funds.

Expenses – Charges incurred (whether paid immediately or unpaid) for operation, maintenance, interest and other non-capital charges.

Fiscal Year – The time period designating the beginning and ending period for recording financial transactions. The City of Asheboro's fiscal year begins July 1st and ends June 30th.

Fixed Assets – Assets of long term character which are intended to continue to be held or used, such as land, buildings, machinery, furniture and other equipment.

Fund – An accounting entity that has a set of self-balancing accounts and that records all financial transactions for specific activities or government functions.

Fund Balance – Fund balance is the excess of assets over liabilities and is sometimes referred to as fund surplus.

Function – A group of related programs crossing organizational (department) boundaries and aimed at accomplishing a broad goal or accomplishing a major service.

General Accepted Accounting Principles (GAAP) – Uniform minimum standards of, and guidelines for financial accounting and reporting. GAAP encompasses the conventions, rules and procedures necessary to define accepted accounting practices.

General Fund – The General Fund accounts for the financial resources of the government not required to be accounted for in another fund. General Fund revenues include property taxes, licenses and permits, local taxes and other types of revenue. This fund usually includes most of the basic operating services, such as fire and police protection, public works, general governmental administration, recreation, and economic and physical development.

General Ledger – A file that contains a listing of the various accounts necessary to reflect the financial position of the government.

General Obligation Bonds – Bonds that finance a variety of public projects such as water and sewer plants, buildings and improvements; the repayment of these bonds is usually made from the General Fund and the Water and Sewer Fund. These bonds are backed by the full faith and credit of the issuing government.

Grant – A contribution by a government or other organizations to support a particular function. Grants may be classified as either categorical or block depending upon the amount of discretion allowed by the grantee.

Interfund Transfers – Amounts transferred from one fund to another.

Intergovernmental Revenue – Revenue received from another government for a specific purpose.

Inventory– A detailed listing of non-capital, tangible property currently held by the government.

Levy – To impose taxes, special assessments, or service charges for the support of City activities.

Line Item Budget – A budget that lists each expenditure category (salaries, materials, telephone, travel, etc.) separately, along with the dollar amount budgeted for each specified category.

Local Government Budget and Fiscal Control Act – This act governs all financial activities of local Governments within the State of North Carolina. (North Carolina General Statutes 159.7 through 159.42)

Long Term Debt – Debt with a maturity of more than one year after the date of issuance.

Maturities – The dates on which the principal or stated values of investments or debt obligations mature and may be reclaimed.

Modified Accrual Accounting – A basis of accounting in which expenditures are accrued but revenues generally are accounted for on a cash basis. This accounting technique is a combination of cash and accrual accounting since expenditures are immediately incurred as a liability while revenues are not recorded until they are actually “measurable” and “available for expenditure”.

Objectives – A simply stated, readily measurable statement of aim or expected accomplishment within the fiscal year. A good statement of objective should imply a specific standard of performance for a given program.

Object Code – An expenditure category, such as salaries, supplies or vehicles.

Operations – The portion of the budget that pertains to daily operations that provide basic governmental services. The operating budget contains appropriations for such expenditures as supplies, utilities, materials, and travel.

Operating Transfer – Routine and/or recurring transfers of assets between funds.

Property Tax – Property taxes are levied on both real and personal property according to the property’s valuation and the tax rate.

Retained Earnings – An equity account reflecting the accumulated earnings of an Enterprise or Internal Service Fund.

Revenue – Funds that the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

Restricted Fund Balance – An account used to indicate that a portion of a fund’s balance is legally restricted for a specific purpose and is, therefore, not available for general appropriation.

Service Level – Services(s) or product(s) which comprise actual or expected output of a given program. Focus is on results, not measures of workload.

Source of Revenue – Revenues are classified according to their source or point of origin.

Special Assessment – A compulsory levy made against certain properties to defray part or all of the cost of a specific improvement or service deemed to primarily benefit those properties.

State Shared Revenue – Funds remitted by the state to municipalities; mostly taxes collected by the state. Includes the utility franchise tax, Powell Bill allocation for state street expenditures, local option sales tax and food stamp sales tax and inventory tax rebate.

Unencumbered Balance – The amount of an appropriation which has not been expended or committed for use. It is essentially the amount of money still available for future purchases.
